

## Sun or Part Sun?

Every plant has specific light requirements for it to grow and bloom well. It is important to observe these requirements when purchasing your plants or they will not perform as well as they could.

To simplify this for you, Knobloch's has color-coded all plant signs, variety t-stakes, hanging basket price tags, & planter price tags!

### **YELLOW Signs & Price Tags: SUN Plants**

6 or more hours of direct sun

- All morning sun
- All afternoon sun
- All day sun

### **BLUE Signs & Price Tags: PART SUN Plants**

4-6 hours of direct sun

- Morning sun
- Late afternoon sun  
(No hot afternoon sun)

We also try to group all annuals and perennials together based on their light requirements. Just remember...yellow is like the sun and blue is cool like the part sun.
